

Feel Me Tonight

*a questionnaire on emotions, language,
conversation, the public and the private*

When I die
I will feel

And I know
it will be

'Cause tonight
someone said:

And it made,
made me feel

You don't hear what I sing, I don't care
as long as you feel me
You will care 'bout the things that I sing
the moment you feel me
Feel me tonight!

There is no
way I'm living without

That is why
I am singing about

I am here
to try talking without

And I know
listening can be

You don't hear what I sing, I don't care
as long as you feel me
You will care 'bout the things that I sing
the moment you feel me
Feel me tonight!
